Subject: 0040 ASPECT Report 18 April 2013

ASPECT has completed the first sortie and is returning to base. Expect to have them on the ground in about 10 minutes. We will pull all the data and await for further instructions.

The flight condition is are very poor with a low ceiling. They flew the mission at 800 feet.

I am working on a report and hope to have a prelim copy out in about 1 hour.

Please give me a call if you have any questions. My number is 513-675-4753
